

SHORT CV

CANDELARIA LÓPEZ ROMERO

Córdoba- España, 1982.

Architect by the University of Seville, where she has also completed a Master in Architecture and Sustainable City. Co-founder of ARTIPICA Creative Spaces: a space for research and urban, architectural and artistic creation. Her professional practice deals with the construction and regeneration of the contemporary city and its architecture through creative interventions. She has extensive experience in urban projects, building, ephemeral architecture, scenography, museography, exhibition design, interior design and furniture. She has been awarded the COAM prize and was a finalist in the FAD awards for one of her exhibition designs.
