

SHORT CV

Pedro **JANUÁRIO**

He is a university professor with extensive experience in teaching and research in the field of architecture and design. Since 2007, he has taught several curricular units in different undergraduate and integrated master's courses in architecture, design, and scenography, covering topics such as parametric modeling, digital imaging, and sustainable architecture. Currently, he is a permanent member of the Centro de Investigação em Arquitetura, Urbanismo e Design [CIAUD] of Lisbon School of Architecture of University of Lisbon, and a founding member of Observatório de Arquitetura, Tecnologias e Inovação (OBATI). He also has extensive experience in supervising doctoral students.
