SHORT CV - Noussayba **RAHMOUNI**

Currently a PhD student at the laboratory of Regional Planning in Kyoto university under the MEXT scholarship program provided by the Japanese government. My previous academic qualifications include a Master's degree in Urban and Regional Planning from the University of Sheffield in the UK as well as a Master's degree in Architecture from the National School of Architecture in Morocco. My present research focus is the impact of colonial legacies on the regional planning system of Morocco from a historical institutionalist perspective.
